

RumbaFish Announces the Customer Advisory Program

Alpha Customer Program Successfully Filled

January 19, 2009

RumbaFish Technologies, Inc.
Palo Alto, CA

Our Alpha Customer Program has been filled. The RumbaFish solution is now available through our new Customer Advisory Program. This program is available to selected organizations and provides the following benefits:

- Slight pricing discount
- Opportunity for exposure of your organization to the broader community through marketing activities and possible joint promotions
- Inside track to voice your opinions and requirements to RumbaFish management

Our programs have already been accessed by some forward thinking companies. We are working with a variety of organizations including content publishers, consumer internet companies, ecommerce retailers, and membership organizations.

We enroll companies in this program on an ongoing, rolling basis. If you are interested in joining our Customer Advisory Program send us a note at gofish@rumbafish.com.
